

inscribe.

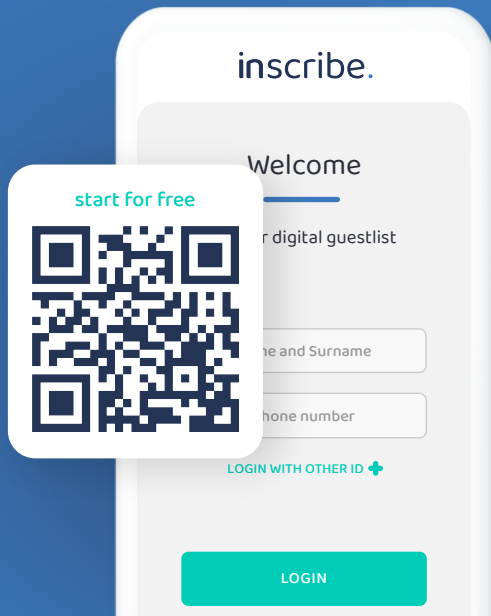

GDPR compliant

Customer registration doesn't have to be complicated!

The digital solution for contactless registration of guests and participants.

Inscribe allows you to digitize the whole registration process – easy, fast and safe.

Inscribe helps you to save time and pen & paper, all while you can promise your guests something very important: data privacy.

Simple. Contactless. Secure.

Simply register, generate your individual QR code and print it. Your guests scan the code and register on your digital list – contactless.

Guests can check in in a matter of seconds. Hygienic & contactless.

With one click you can generate your digital guest-list for tracking contacts.

We know what matters: data privacy

Inscribe is **GDPR compliant**. How? With your private key, only you can access the digital guestlist to provide the list to the authorities as required. As long as the guest didn't consent to other options, their data will automatically be deleted after 30 days.

What do your guests see?

Scan this QR code and have a look.
